Institution: University of Turkish  
Aeronautical Association

Year of Graduation: 2022

- Final Grade: 2,30
- EQF level 6

### Skills & Proficiencies

- ReactJS
- SASS and SCSS
- MUI
- Tailwind
- Ant Design
- Bootstrap
- REST API
- Web Design and Development
- UI/UX designs
- API integration

### Work Experience

#### Front-end Web Developer

**Sahra Telekom & Mobikob**, a SaaS CRM firm that specializes in reaching businesses to assist on sales, production, customer support, and marketing automation features.

*Apr 2022 to Feb 2023 (10 months)*

- Designed and implemented front-end for enterprise-level systems, including **CRM, PBX, and HR modules**, utilizing modern technologies and programming languages.
- Developed an **advanced dashboard module** that leverages every module on the system to provide a comprehensive and streamlined user experience.
- Created social media management system using **Facebook, Instagram, and WhatsApp APIs** to improve client-customer communication, leading to increased engagement and customer satisfaction.
- Used **REST API, ReactJS, MUI, Tailwind, styled-components and Emotion** on the projects.
- Utilized **DDD** and **TDD** to develop scalable and maintainable software solutions with improved code quality and faster time-to-market.
- Successfully integrated popular accounting systems including **Logo, Parasut, and Bizim Hesap** into a **CRM system**, enabling real-time data syncing, **automated billing and invoicing**, and improved financial reporting.

## Volunteer Work, Awards, Affiliations, and Interests

- I actively participate in Stack Exchange sites such as Stackoverflow.
- Passionate about problem-solving and algorithm design, I enjoy challenging myself by solving algorithm problems on platforms such as LeetCode.

## Full-Stack Developer (Intern)

**Arca Software**, a firm that gives consultancy to companies and creates ERP solutions for customers.

*Jun 2021 to Aug 2021 (2 months)*

- Contributed to the design and development of an **ERP system** for **clients of Arca Software**, Collaborating with a cross-functional team to deliver a user-friendly and efficient system.
- During my internship, I gained practical experience using the **.NET Framework** and programming in **C#**, contributing to the development of systems that were critical to the success of the organization.
- Designed and implemented a **QR code menu system**, seamlessly connecting data from the company's **database** to the **front-end** for a more streamlined user experience.

I consent to the processing of my personal data contained in the application documents for recruitment processes planned by the Controller.
